

SLEEPY TIMES

VOLUME 16, ISSUE 4 APRIL 2022

MESSAGE FROM THE CHAIRMAN: WELCOME CLASS OF 2026

-SCOTT T. REEVES, MD, MBA

I want to welcome the class of 2026. This was our second year of resident interviews that were totally virtual. Despite the inability for us to meet candidates in person and highlight our excellent educational offerings, facilities and city, we continue to match a very highly competitive class. I am personally excited about having residents from medical schools that we frequently don't see residents from including Wright State, West Virginia University, Boston University, University of Massachusetts, University of Maryland and University of Minnesota. I want to personally thank GJ Guldan, Joel Sirianni, Elizabeth Morrison and Savannah Crocker for all their work plus all the faculty and residents who participated in this year's interview process.

MEET YOUR NEW 2022-23 CHIEF RESIDENTS!

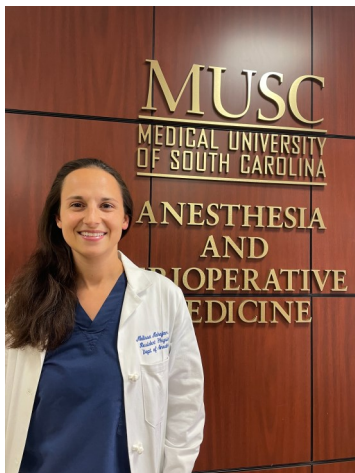

Chloe Regalado

Born in College Station, raised in San Antonio, TX apparently I came into this world just as expressive (some would say loud) as I am today. I received my undergraduate degree in Biomedical Sciences at Texas A&M University and worked in property management all throughout college. Following a Master's degree, I went to medical school at TCOM in Fort Worth where I got accepted off the waitlist on the first day of orientation because someone didn't show up. Easily the most chaotic 24 hours of my life. My fourth year of med school, I did an away rotation at MUSC and that's when I realized I had found my people. I was fortunate enough to match here later that year. It's been a minute now and even on the longer days, I am so thankful I get to be around and learn with great people I get to call friends. When not at work, I enjoy zipping around downtown in our golf cart with my significant other, Jerad (one our graduating CA-3's), our roommate Jake (one of my co-CA-2s) and the most important member of our household, our black lab, Duke. I am beyond honored to have been chosen to be a part of this team, and look forward to working with everyone to try and do well by the people of this program! Also, if any one can tell me where to find decent Tex-Mex, you have my number.

Growing up in Richmond, Virginia, I often followed my dad, a cardiologist, around during his rounds in the hospital where he worked. However, I didn't begin to view medicine as a career for myself until I began volunteer work as a certified Firefighter-EMT in high school. I attended Washington and Lee University, continuing my work as a volunteer Firefighter-EMT, where I majored in Biology. Upon graduation, I was accepted and chose to attend the Medical University of South Carolina (MUSC) in Charleston, South Carolina. My partner, William, moved to Charleston with me and we were both thrilled when we learned I had the fortune to remain at MUSC for my residency as well. We've really found a home in the Lowcountry. William manages a law practice in town with a focus on commercial real estate and business transactions. When I'm outside of the hospital, I like to explore the Charleston food scene. I also enjoy honing my cooking skills at home. Otherwise, I am likely traveling, spending time with friends and family, or just hanging out at home with our dog, Kevin, and our cat, Sampson.

Steven Vranian

Melissa Mahajan

I was born in Buffalo, NY (Go Bills) and grew up in a small city called Elmira, NY. I attended undergrad at Hobart and William Smith Colleges in Geneva, NY and subsequently medical school at SUNY Upstate Medical University in Syracuse, NY. After too many years of bitter cold and long, snowy winters, I decided enough was enough and sought greener pastures when applying to residency. I was thrilled to match at MUSC along with my now fiancé, Pat Curtin, whom some of you may have seen as a resident on the other side of the drapes in the urology room. We have two cats named Bagheera and Baloo and a puppy named Mowgli.

DEPARTMENTAL FACULTY COUNCIL REPRESENTATIVES

Recently, the faculty had the opportunity to elect a third representative to the College of Medicine Faculty Council. Our new elected member is Dr. Andrew Fisher. Congratulations.

Dr. Fisher will serve along with Drs. David Gutman and Eric Bolin. A member serves for 3 years. Our representatives have staggered terms; hence, the department will be electing a new member each year as someone rotates off.

The College of Medicine Faculty Council is a component of the shared governance of the College of Medicine and serves as an advisory body to the Dean. The College of Medicine Faculty Council is charged by the Dean with the following:

- Serve in advisory role to the Dean on issues of faculty, staff, trainee, and student development;
- Consider matters of concern to the college at the direction of the Dean, develop proposals to address issues, and deliver proposals to the Dean;
- Develop recommendations for policy changes;
- Convey faculty concerns to the Dean;
- Maintain lines of communication between faculty and administration on issues and concerns among faculty and assist in the communication of administrative directives to faculty;
- Facilitate accomplishment of initiatives at the direction of the Dean.

MUSC CHILDREN'S HEALTH R. KEITH SUMMEY MEDICAL PAVILLION

Recently, Elizabeth Hirsch, CRNA was featured in a promotional video highlighting the unique and special care offered to pediatric patients and families at the MUSC Children's Health R. Keith Summey Medical Pavilion

Take a look at the video [here!](#)

EDUCATION SUITE GETS AN UPGRADE!

WELCOME TO THE DEPARTMENT—BLAKE FRAZIER, CRNA

I was born and raised in Latta, SC (Pee Dee region, near Florence). I graduated from USC College of Nursing with my BSN in 2012 and moved to Minnesota to work at the Mayo Clinic. I worked full time as a registered nurse and ECMO Specialist in the Medical/Surgical/Transplant ICU and Adult/Pediatric CVICU for 6 years before returning to CRNA school. I just graduated with my DNAP from the Mayo Clinic School of Health Sciences in January 2022, and I am very excited to be joining the ART Anesthesia team. It is so good to be back home in Carolina! When I'm not working, you will find me at the beach, relaxing poolside, exploring all of the amazing food options Charleston has to offer (I'm a foodie at heart), and at Carolina football games in the fall. My partner Chris is a nurse manager at MUSC, and we have two fur babies, Bo and Sadie. We are currently living in Mount Pleasant. I cannot wait to meet and work with you all!

ANDRIA BROWN, ART ADMINISTRATIVE COORDINATOR, RETIRES AFTER 13 YEARS!

NEW BABY IN THE DEPARTMENT!

Larry and Elizabeth Field welcomed Clark Tyler Field on March 8th at 12:45pm. He was 7lbs and 14ozs and 20 inches long!

CRNA OYSTER ROAST

A good time for 35 members of Main, Rutledge, and the Ambulatory Centers CRNAs and family was held on Sunday 3/20 at Mainland Container Co. Kitchen & Bar in Mt. Pleasant. The weather cooperated and provided a venue for a great time. Many brought significant others including the “furry” ones! The group is looking forward to many other events. Thanks Jenna and Suzanne!

2022 ANNUAL MANDATORIES

The process of assigning the 2022 annual mandates began mid-January. [Click here](#) for a breakdown of the mandatory assignments based on role.

Note that all care team members are required to complete the four hour education requirement. Courses are available for self-enrollment via [MUSC's Diversity & Inclusion MyQuest Catalog](#).

All of the annual mandatory training modules and requirements must be completed no later than June 30, 2022. If you have any questions, please email Jenny Ann Smoak.

2022 Annual Mandatories

2022 MUSC General Mandatories (Enterprise-wide)	2022 MUSC Health Mandatory Training (MUSC Health Care Team Members Only) All Divisions
<ul style="list-style-type: none"> • Active Shooter • Crime Prevention and Jeanne Clery Act Training • Code of Conduct and HIPAA • Family Educational Rights and Privacy Act (FERPA) • Prohibited Discrimination and Harassment • Information Security • OSHA Review • Tuberculosis (Charleston only) • OneMUSC • Conflict of Interest training 	<ul style="list-style-type: none"> • MUSC Health General Compliance (+ Billing) • Patient Safety: A commitment to zero harm • Emergency Management Campus Security • Infection Prevention and Control • Meeting the Unique Needs of Patients • Stroke, Heart, and Hypoglycemia: Early Recognition • Workplace Violence • MR Safety for Healthcare Workers • Patient and Family Centered Care and Patient Engagement

Diversity, Equity, and Inclusion Training

- All MUSC employees are required to complete the four hour education requirement. Unless your supervisor or HR has assigned specific modules to you, there are no set courses. Courses are available for self-enrollment via MUSC's [Diversity & Inclusion MyQuest Catalog](#).

2022 Annual Clinical Education (MUSC Health Clinical Care Team Members Only)

- COMPLETION DATE VARIES BASED ON CLINICAL REQUIREMENTS

2022 MSO Mandatories (Credentialed Providers Only)

- To be assigned dependent upon Medical Executive Committee approval.

Overview of Research at MUSC (Role-based Only)

- University only

All of the annual mandatory training modules must be completed no later than **June 30, 2022**.

CONSEQUENCES OF NOT COMPLETING ANNUAL MANDATORY TRAINING?

- You will be ineligible for pay for performance.
- You will be subject to disciplinary action.
- Your employment will be terminated if not completed by **11:59 pm on July 14**.

I HUNG THE MOON

Please don't forget to nominate your co-workers for going 'Beyond the Call of Duty.' I Hung The Moon slips are available at the 3rd floor front desk and may

Jaret Navarro: Thank you for the amazing service! I know it may not seem like much to you, but I am floored by your responsiveness and attentiveness to the needs of the department. I did not expect for you to be able to address the hardware issue today, much less within 10 minutes of me making the support request! I'm so thankful you're on our team.—Gabe Hillegass, MD

Diane L.—Thank you for assisting in emergent Meducare transport from ART MRI to UH OR.—Julie McSwain, MD

Dr. Ali—Excellent work for a patient needing an emergent MRI then transported to UH for emergent surgery.—Julie McSwain, MD

Dr. Geating—Excellent work for a patient needing emergent MRI then transported to UH for emergent surgery.—Julie McSwain, MD

Dr. Grayce Davis—Thank you for facilitating a quick transfer from ART to UH for emergency Surgery.—Julie McSwain, MD

Hercules Brown—Thank you for facilitating an emergent MRI case.—Julie McSwain, MD

Charlotte Barron—Very bust day in IR, Ms. Barron was pleasant and did amazing team work.—IR

I want to give a big shout out to the Education Office's Savannah Crocker and Janessa Green for being the best program coordinators ever! You ladies are awesome and I appreciate you so very much! Thank you so much for all of your hard work! - Elizabeth Morrison
