

MED⁹EL

RESOURCES

HearPeers

MED-EL has a community of hearing implant recipients, caregivers, and professionals across all 50 states who cannot wait to support you. Whether you have had your hearing device for 20 years or have just been diagnosed with hearing loss, our HearPeers community is HEAR FOR YOU!

BRIDGE to Better Communication

MED-EL's BRIDGE rehabilitation program offers more support materials than any other hearing device company. Developed with leading rehabilitation specialists, this program consists of a wide variety of materials and information to meet the needs of adults, teens and children as well as their parents, audiologists, speech-language pathologists, and teachers.

Unidos Oimos

MED-EL's Bilingual Program, Unidos Oímos, is here to help Spanish-speaking families and communities on their journey to better hearing. With over 25 years of experience with children and adults with hearing loss, cochlear implants and middle ear implants, our bilingual team of professionals is here to help and answer any questions you may have about hearing loss and/or MED-EL technology.

Consumer Engagement Managers

MED-EL has hearing professionals all over the United States who can help navigate you through your appointments, surgery, rehabilitation, and anything in between. They have relationships with clinics and hospitals and even drop in from time to time to make sure that both staff and our users are educated on how to best utilize their MED-EL hearing device. Some are even bilingual to assist our Spanish-speaking users.
