AGENDA

7:30 - 7:55 a.m. Registration and Breakfast, Meet Exhibitors

7:55 - 8 a.m. **Welcome**..... Clarice S. Clemmens, M.D.

8 - 8:25 a.m. **Updates in VPI Surgery and the Rise of Buccal Myomucosal Flaps**
..... William W. Carroll, M.D.

Integrate buccal myomucosal flaps into the paradigm of surgical options for VPI.

8:25 - 8:50 a.m. **Otologic Care of the Down Syndrome Patient**
..... Daniel J. Kirse, M.D.

Interpret the care of the child with Down syndrome regarding hearing loss and potential surgical needs.

8:50 - 9:35 a.m. **Regional Tracheostomy Management**
..... Panel: S.Aujla, E.Kiell, L.Redden, S.Sobol, D.White

9:35 - 10:00 a.m. **Quality Improvement and Patient Safety (QIPS) Foundations**
..... Jeffrey Cheng, M.D.

Create a run-control chart to evaluate post-tonsillectomy hemorrhage trends.

10:00 - 10:15 a.m. Break, network with exhibitors

10:15 - 10:40 a.m. **Pediatric Vocal Cord Immobility**..... Anthony Ghanem, M.D.

Differentiate between the etiologies of vocal fold immobility to be able to formulate an appropriate treatment strategy

10:40 - 11:05 a.m. **Pediatric Transoral Robotic Surgery**
..... Carlton J. Zdanski, M.D., FAAP, FACS

1. Identify the indications for TORS in the pediatric population; 2. Assess candidacy criteria for TORS for pediatric aerodigestive pathologies; 3. Compare advantages and disadvantages to TORS vs traditional approaches for pediatric aerodigestive pathologies.

11:05 - 11:30 a.m. **Pediatric Otolaryngology Billing Tips and Tricks**
..... George F. Harris, M.D., FACS, FAAP

Examine, analyze, and revise their billing and coding practices, optimized for pediatric otolaryngology.

The 8th Annual Charleston Pediatric ENT Update

The Medical University of South Carolina | Department of Otolaryngology – Head & Neck Surgery

11:30 - 11:45 a.m. Break, get lunch

11:45 - 12:10 p.m. **Lunch talk 1:**
Updates on Pediatric Cochlear
Implant Candidacy and Referral
GuidelinesAmy S. Noxon, AuD

Assess if a child with hearing loss has potential to benefit from a cochlear implant.

12:10 - 12:35 p.m. **Lunch talk 2:**
Assessment and Management
of Auditory Neuropathy Spectrum
Disorder (ANSD)

.....Mary Laing Holland, AuD

Evaluate, diagnose, and manage patients with Auditory Neuropathy Spectrum Disorder (ANSD).

12:35 - 1:25 p.m. **Creating a Sensible Approach for**
Managing Dysphagia Referrals in a Busy
Airway Practice!

.....Steven M. Sobol, M.D. MSc, FRCS(C)

Apply strategies for triaging, evaluating and managing patients with dysphagia-related chief complaints, with a focus on leveraging the surgical expertise of the otolaryngology surgeon.

1:25 - 1:50 p.m. **Laryngomalacia: Pearls and Pitfalls**
.....J. Drew Prosser, M.D.

Describe both anatomic and sensory contributions to laryngomalacia and apply this knowledge to management.

1:50 - 2:15 p.m. **Dysphagia Patterns in Special**
Populations
.....Heather C. McGhee, MS, CCC/SLP

Differentiate oropharyngeal characteristics commonly seen in children with various airway diagnoses.

2:15 - 2:40 p.m. **Vascular Anomalies in Children**
.....Krishna G. Patel, M.D., Ph.D.

Differentiate between the different categories of vascular anomalies based on clinic and physical examination.

2:40 - 2:55 p.m. Break, network with exhibitors

2:55 - 3:20 p.m. **Caring for the Baby with a Cleft:**
The First Year Of Life
.....Phayvanh P. Pecha, M.D., MPH

1. describe cares specific to a newborn with cleft lip. 2. differentiate the feeding needs of a baby with and without a cleft palate. 3. evaluate and determine the next steps for a newborn with suspected Pierre Robin sequence.

3:20 - 3:45 p.m. **The Environmental Impacts of the**
Operating Room
.....Karen A. Hawley, M.D.

1) Access the multifactorial effects of operating room waste on the environment. 2) Revise the operating room set up used in ENT cases to minimize waste.

3:45 - 4:10 p.m. **Overview of Congenital CMV**
.....Eileen M. Raynor, M.D.

1) Differentiate between symptomatic and asymptomatic cCMV and implement strategies for identification of cCMV in failed newborn hearing screens; 2) Create a long term care plan for children who are proven to be positive for cCMV including audiological evaluations; 3) Educate families about cCMV and potential impact on hearing over time.

4:10 - 4:15 p.m. **Q&A**.....Clarice S. Clemmens, M.D.

4:15 p.m. **Adjourn.**
Please complete all CME/CEU forms.

Thank you!
