The Charleston Pharyngoesophageal Manometry Training Program

January 10 - 11, 2020
Hyatt House Mount Pleasant - Midtown
1430 Midtown Avenue, Mount Pleasant, SC 29464
Course Director: Ashli K. O’Rourke, M.D.
Evelyn Trammell Institute for Voice and Swallowing

musc.edu/ent/cme
This 1-3/4 day introductory/intermediate program, designed for speech language-pathologists, laryngologists, and otolaryngologists, will consist of didactic sessions to introduce participants to the basics of pharyngoesophageal high-resolution manometry (HRM). Hands on training experiences and case based examples will then serve to expand participants’ understanding of the clinical applications of HRM. Both pharyngeal and esophageal examinations will be covered. We will focus on the diagnostic and therapeutic capabilities of HRM as well as protocols for pharyngeal dysphagia patients.
