# Conference Overview

*The MUSC Department of Otolaryngology – Head and Neck Surgery is proud to present our 11<sup>th</sup> Annual Literature Update Course at the Kiawah Island Golf Resort, SC as well as virtually on July 16 & 17, 2021.*

*How does a busy clinician stay current in our rapidly expanding specialty? The literature is replete with new or refined diagnostic procedures, operative interventions and treatment algorithms. It is a difficult, if not at times bewildering, task to digest this information.*

*This course is designed to help. Our faculty members are charged with reviewing last year's literature in their subspecialty, and then choosing the six to eight best articles for critical review. To be considered best, we are especially looking for seminal works and those with a strong evidence base. Importantly, the manuscripts must have significant applicability to every day clinical practice.*

*The specialty – head and neck cancer, FPRS, otology-neurotology, endocrine disease, sleep disordered breathing, allergy, rhinology-sinus disease, voice and swallowing disorders, and pediatric ENT will be covered in 15 lectures. You will receive a list of all articles reviewed and the presenters' presentations.*

*In two days, over 100 manuscripts will be reviewed, and those "pearls" important to your practice will be emphasized. I believe that there may be no better way to stay current in our field than with this Literature Update Course. I hope you will join us in a beautiful location along the South Carolina coast or virtually this July.*

*Paul R. Lambert, M.D.  
Professor and Chair*

## What participants are saying...

Overall the conference was well organized and well executed, and Kiawah Island was a beautiful vacation site.

My favorite meeting each year I have attended, with a superb cost/benefit ratio.

Thanks for your commitment to the Lit Review despite the challenges that COVID has added to our professional and personal lives; the quality of this conference was not impacted at all by the virtual presentation; looking forward to 2021 Course, either here or there.

Very good topics and relevant to my practice.

Very helpful; learned something in each lecture.
