

DCRI seminar and chalk talk schedule 2021-2022

Seminars:

DCRI seminars take place 12-1 pm at the SJCH auditorium, as well as virtually via Zoom.

Tuesday, January 11th, 2022

Brian Stansfield, MD (Augusta University):

“Rare Diseases and the General Population: Leveraging Heritable Mutations in the Pathogenesis of Arteriopathy”

(Host: Dr. Heidi Steflik)

Monday, February 7th, 2022:

Bill Smoyer, MD (Nationwide Children’s Hospital)

“Drug Repurposing: Translation from Pre-Clinical Studies to Pivotal Clinical Trials in Childhood Nephrotic Syndrome”

(Host: Dr. Katherine Twombly)

Tuesday, March 8th, 2022

Ryan Roberts, MD, PhD (Nationwide Children’s Hospital)

“Metastasis as an evolutionary microcosm: competition, cooperation, and adaptation facilitate lung colonization”

(Host: Dr. Denis Guttridge)

Chalk Talks:

2nd Tuesday each month, **3-4 pm**, virtual via MS Teams. Possible transition to in-person meetings in DCRI 614 once COVID permits.
