### \*Required Courses for MPH in Epidemiology

### \*\* Core Courses for All MPH Students

Paragraph Version of Curriculum: The MPH in Epidemiology requires a total of 45 credit hours of which 36 credit hours will be didactic coursework, including fifteen credit hours in five core courses required by the Council of Education for Public Health: biostatistics, epidemiology, environmental health science, health systems and policy, and social and behavioral sciences. Students will be required to fulfill 6 credit hours of epidemiology coursework and 8 credit hours of biostatistics coursework, a 3 hour design and conduct of field epidemiology course, a 2 hour introduction to public health course, a 1 hour MPH seminar course, and 7 hours of non-specified elective courses, and one semester of a one hour interprofessional course. Additionally, students will complete an internship (for 6 credit hours) and demonstrate their knowledge in a capstone project (3 credit hours).

Bulleted Version of Curriculum: The MPH in Epidemiology requires a total of 45 credit hours of which 36 credit hours will be didactic coursework, including

- 15 credit hours in five core courses required by the Council of Education for Public Health: biostatistics, epidemiology, environmental health science, health systems and policy, and social and behavioral sciences
- 6 credit hours of epidemiology coursework including the 3 credit core course
- 8 credit hours of biostatistics coursework including the 3 credit core course
- 3 credit hours in the design and conduct of field epidemiology course
- 2 credit hours in the introduction to public health course
- 1 credit hour in the public health seminar course
- 1 credit hour in the interprofessional course
- 7 credit hours of non-specified elective courses
- 6 credit hours of internship
- 3 credit hours of capstone
