

MUSC Global Surgery Program

04/18/2024 / THURSDAY / NEWSLETTER NO. 11

We Are Live from Uganda

Hollis Chillura (M2) is live from Uganda! Read below for a first-person reflection from Hollis on her experience.

Dr. Eskandari February Event

For our February event, we had the pleasure of hosting Dr. Ramin Eskandari, Chief of MUSC Pediatric Neurosurgery!

Interview with Dr. Daniel Akyeampong

We interview Dr. Daniel Akyeampong (PGY-3), the first surgical resident at MUSC to attend MUSC's Global Surgery Rotation in South Africa.

Live From Uganda! A Reflection From Hollis Chillura (M2)

“Amidst the rich diversity of Uganda, where more than 40 languages and tribes are present, a profound spirit of community shines through as a defining trait. From the emergency room, I witnessed families and friends who had journeyed for hours to stand in solidarity with a child battling pesticide poisoning. Yet, it wasn't just within the confines of this hospital that I witnessed the power of unity. In Bweyale, we met two remarkable Ugandan doctors who have committed their lives to serving the vast South Sudanese refugee population. Despite their workload, these doctors warmly welcomed our group of medical students, offering insight into their efforts and the facility they've built from the ground up. Inspired by their resilience, I depart with a renewed perspective on global health. I can't wait to return someday!”

Global Surgery Hosts Special Guest Speaker, Dr. Ramin Eskandari

On Thursday, February 22nd, we were honored to welcome Dr. Ramin Eskandari, Chief of MUSC Pediatric Neurosurgery, as the speaker for our MUSC Global Surgery Speaker Event. Dr. Eskandari shared compelling insights from his remarkable global surgical journey, including noteworthy experiences from his groundbreaking work in Uganda. We thank Dr. Eskandari for his insightful and inspiring contribution to our event.

Interview with Dr. Daniel Akyeampong (PGY-3)

Global Surgery Member, Cassandra D'Amico, recently sat down with Dr. Akyeampong to hear more about his experience at MUSC's Global Surgery Rotation. See our website for Daniel's insightful reflection on his rotation!
