

MUSC Global Surgery Program

08/30/2024 / FRIDAY / NEWSLETTER NO. 12

We Are Live from Ecuador

Sierra Patterson (M3) is live from Cuenca, Ecuador! Read below for a reflection from Sierra on her experience.

Orthopedic Surgery Speaker Event

For our July event, we had the pleasure of hosting Dr. Christopher Gross and Dr. Dane Daley!

MUSC Global Surgery Program Video

We are excited to unveil a new video highlighting our program's mission and members.

Live From Ecuador! A Reflection From Sierra Patterson (M3)

Sierra Patterson (M3), a member of the Global Surgery council, conducted her FLEX research in Cuenca, Ecuador earlier this summer. Sierra collaborated with Cinterandes, a nonprofit mobile surgery organization. With the assistance of volunteers such as Sierra and our director, Dr. Mike Mallah, Cinterandes performs over 300 surgeries annually. Sierra also led multiple research projects during her time in Cuenca, focusing on patient outcomes and volunteer impact. *“Witnessing low and middle-income countries make the most of limited resources to provide care inspires me deeply. I’m driven to bridge the gap in access to care in these remote regions, but also to learn from their ingenuity and translate it into sustainable solutions that can benefit healthcare systems globally”*- Sierra Patterson

Global Surgery Hosts Dr. Dane Daley and Dr. Christopher Gross

On Wednesday, July 24th, we were honored to welcome Dr. Christopher Gross, Director of MUSC's Foot and Ankle Division, and Dr. Dane Daley, MUSC Chief of Hand and Microvascular Surgery, as the speakers for our MUSC Global Surgery Speaker Event. Both shared insight from their global experiences, including longitudinal work in Haiti and a multi-continental collaboration with the nonprofit Steps2Walk. We thank them both for their inspiring contributions to our event!

NEW! MUSC Global Surgery Program Video

We are excited to announce the release of our new program video! Check out our website or QR code to view the five-minute video highlighting our program's members, research accomplishments, and global partners.
