

Program Director Access

When Program Directors are assigned in MedHub, they will have access to programmatic information in order to assess the function and overall success of the program. This includes:

- **Curriculum Objectives/Goals** – Program Directors have the ability to upload the goals and objectives across services or rotations pertinent to their program as well as share these goals and objectives with other programs. They can also add any curriculum that is not necessarily related to a particular service/rotation, but for purposes relative to the program and/or the institution. They also have the ability to see who downloaded the curriculum goals/objectives for a particular service/rotation. These goals and objectives will appear for all trainees as well as faculty members on their main portal or Home page. They can also work with their program coordinator to determine when they want these goals and objectives sent to their trainees via e-mail before the service or rotation begins. MedHub can send these e-mails out automatically once it's determined when these goals should be distributed.

Curriculum Objectives/Goals

Curriculum Objectives Sharing Programs

Curriculum Types: All Curriculum In-House Services Released Services Non-Service Curriculum

Status: All Active Archived

- **Resources/Documents** – Program Directors have the ability to upload any resources or documents that are not curriculum goals and objectives to the main portal page as well. These can also be viewed by the trainees, other faculty and administrators on their main portal page. The Director can create files and add any documentation necessary that he or she determines is relevant. He or she can add any website links (i.e. American Board of Medical Specialties) that can be accessed by the trainees, faculty and administrators as well.

- **Competency Dashboard** – This dashboard provides the Program Director oversight of how the measurement and assessment tools used in MedHub are tied to the ACGME six core competencies. It can help the Program Director identify where the program may be lacking in addressing particular competencies and by which means.

Competency Dashboard

This tool can be used to summarize the competency-based resources and measurement tools that are currently used within your program.

- **Program Accreditation** – This provides the Program Director oversight of accreditation activities of the training program. Most documentation in this section is controlled by the GME Office, but the Director does have the ability to upload in accreditation correspondence, add any specific accreditation program policies and initiate an annual program review.

- **View Faculty/Service/Program Evaluations** – The Program Director has the ability to review individual evaluations of each faculty member that has been completed by the trainee as well as review aggregate results of each faculty member as well.

and the breakdown of patients based on procedures entered.

Mentor Access to Procedures/Cases

- **Procedure Certifications** – The Program Director has the ability to certify each trainee based on the number of procedures the individual trainee has performed. This information can be used to indicate that the trainee is capable of performing these procedures independently.

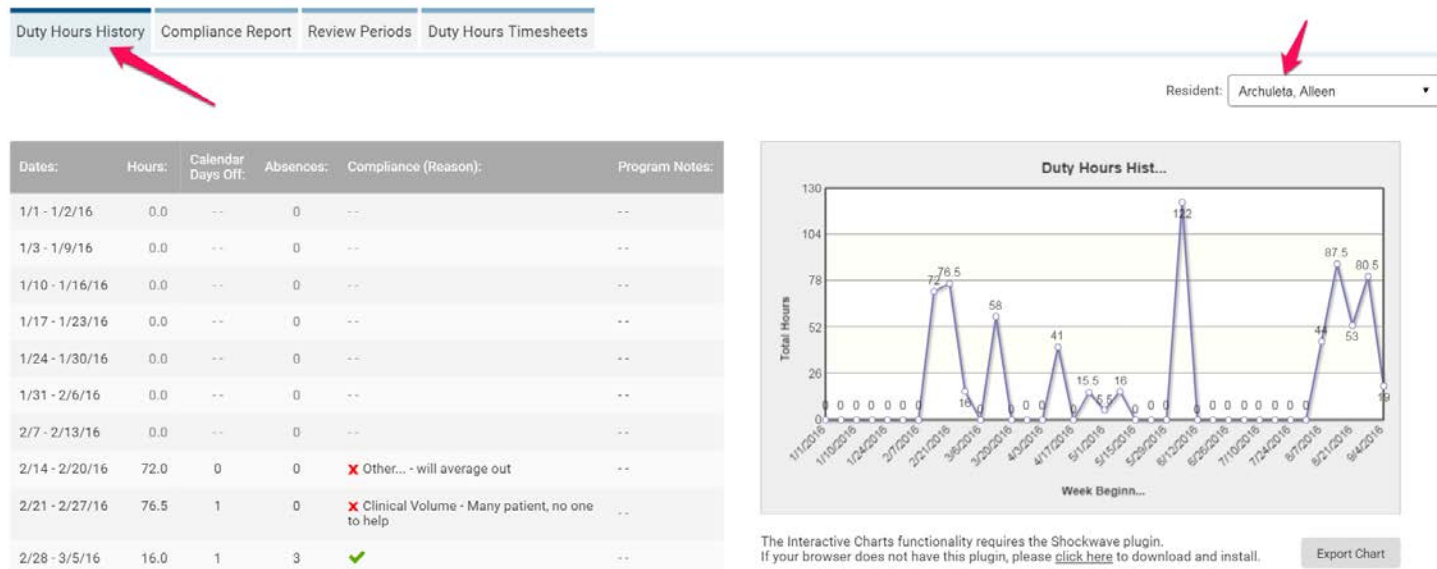

Procedures

Status:	Resident(s):	Procedure(s):
(All) ▾	Aviles, Magdalena (3) ▾	(all procedures) ▾

Procedure Type:	Performed/Required:	Certified By:	Date:	Certified:
appendectomy	0 / 5*	--	--	<input type="checkbox"/>
Arterial Line	1 / 5	--	--	<input type="checkbox"/>
Arthrocentesis (other joints)	0 / 5	--	--	<input type="checkbox"/>
Arthrocentesis of the knee joint	0 / 5	--	--	<input type="checkbox"/>

- **Resident Duty Hours** – The Program Director can review the duty hour history of each trainee,

Mentor Access to Resident Duty Hours

And look at detailed duty hour submissions across all trainees by rotation period. Any issues in the detail will be highlighted.
