### **Position Descriptions:**

Student Council Executive Officers: See [Organization and Responsibilities of members of the Student Council](#) for a list of COMSC Executive officer duties.

### **Class Officers**

**President:** The class president's duties are to represent their class at COM student council meetings, to oversee & organize class fundraising, social activities, and community service events, and to be a liaison between the class and Dean's office to resolve any problems or issues at hand, such as honor council, curriculum change, et al.

**Vice President:** The vice president's main duty is to assist the class president and to take lead in the president's absence. Specifically, the vice president helps in brainstorming, planning, and organizing community service projects, fundraising opportunities, and social events for the entire class. The vice president also acts as a liaison between the student council and his/her class. The vice president must attend student council meetings as a class representative if the president cannot attend. During a student council meeting, the vice president must report his/her class' current projects.

**Secretary/Treasurer:** The role of secretary/treasurer is to manage class funds and be a liaison between the class and the officers/Dean's office. The treasurer collects class dues to be used for class related activities, social events, and fundraisers. The secretarial role involves attending student government meetings and relaying any pertinent information to the class if need be.

**Student Government Association (SGA) representatives:** See the MUSC website to read more about SGA and the roles and responsibilities representatives have as part of this association.

### **Course Evaluation/Curriculum Advisory Committee representatives**

**1st and 2nd year representatives:** Attend meetings also known as feedback lunches at the end of each test block to evaluate the curriculum followed during that test block. These students will work as liaisons between fellow classmates, professors, and the Dean's Office ensuring that student concerns are expressed and improvements are made to the curriculum when necessary.

3rd and 4th year representatives: Attend meetings regularly with clerkship director(s) to share current feedback from the 3rd years, receive feedback from the clerkship director(s), help to disseminate information to the 3<sup>rd</sup> year class, and share clerkship updates at meetings of the Clinical Science Planning and Evaluation Committee.

Faculty Excellence Awards representatives: Two representatives, Basic Science Years rep and Clinical Science Years rep, work together to send out monthly emails to all of the classes asking them to nominate teachers for Teacher of the Month awards. They assimilate those emails and create certificates to send out to each faculty member selected each month. They also organize the Faculty Excellence Awards at the end of the year and get each class to vote on their top 3-5 teachers to be recognized individually at the ceremony held in the spring. The organization of this event includes getting the class skits together, arranging for lunch, programs, awards, certificates, etc. Generally, these representatives act as liaisons between students and faculty/residents to honor those teachers that go above and beyond each month and for the year overall.

Honor Council representatives: *Elections are held outside of Student Council elections and managed by the Honor Council Representatives and Faculty Advisor.*

There are three 1st year students elected during the Spring semester for this 4 year position. The time commitment is as needed based on the frequency of infractions. Their main duty is to investigate reported accusations, attend any trial that occurs, and attend any other meetings. These representatives may be the first people their classmates report to and therefore, may serve as a liaison between the accuser and the council. As representatives, these students will have the opportunity to run for offices at the end of 1st year.

Clinical Sciences Planning and Evaluation Committee: The Clinical Sciences Subcommittee is part of the COM Curriculum committee that discusses and works to improve various issues and parts of the 3<sup>rd</sup> and 4<sup>th</sup> year curriculum. These representatives will work with two 4<sup>th</sup> year medical students as well as the clerkship directors and coordinators for each core rotation.

Representatives must attend the meetings held the second Wednesday of every month from noon – 1:00 and a retreat.

Progress Committee representative: Candidates applying for the Progress Committee need to submit a statement of intent of no greater than 250 words. The College of Medicine Progress Committee is responsible for reviewing the performance of students who encounter academic difficulty or who exhibit personal characteristics inappropriate for one seeking to become a physician. The Committee meets and reviews students' performance with Course Directors at the end of each semester. If students are recommended for dismissal, students have an opportunity to appear before the Committee to present any extenuating circumstances. The Committee can then decide whether to let the recommendation stand or recommend another course of action (repeating the whole year, repeating a semester, etc.) The Committee also

meets in May to approve fourth year students for graduation. Students that are appointed to the Progress Committee must practice the same discretion and confidentiality as the faculty members and have the same voting privileges as the faculty members. The appointee will be subject to all rules and regulations set forth by the Progress Committee. The members will be responsible for informing the Progress Committee when they will be unable to attend meetings. Should the representative at any time resign from the Committee or be asked to resign from the Committee, elections will, within two (2) months of the date of resignation, be held to appoint a new member of that class to fill the unexpired term.

Selectives and Electives Subcommittee representatives: These representatives work with the faculty in the Dean's office to offer senior students a variety of electives as well as aid in defining objectives for these electives. They also assist the senior class through the process of choosing their electives. This subcommittee does not meet regularly and calls upon these representatives as needed when meetings are scheduled.

Flexibility will be exercised for all of the above as future needs may warrant changes.

### **Positions Selected by Interview**

Candidates for the OSR and Admissions committee must be members in good standing of the 1st Year class and declare themselves by following the protocol for each position. After all materials are received, candidates will be notified of an interview time/date/place to be conducted within two (2) weeks. These interviews and subsequent selections will be conducted by interested parties from the committee in question. A call for candidates must be distributed to all eligible students at least two weeks prior to interviews.

Organization of Student Representatives (OSR): Candidates applying for the OSR need to submit a statement of intent of no greater than 250 words and a curriculum vitae (CV) or resume.

(1) Appointment to OSR will be done by yearly interviews of all interested persons in the 1st Year Class for the purpose of appointing one person to a four year term on the OSR. Appointment to the OSR will carry the rights of full committee membership. The appointees will be subject to all Rules and Regulations set forth by the OSR. Should the appointee at any time resign from the OSR or be asked to resign from membership, OSR will, within two months of the date of resignation, solicit letters from the appropriate class, conduct interviews, and appoint a new member of that class to fill the unexpired term. The exception to replacement will be if a 4th Year resigns after completion of the fall semester, in which case time would not permit effective replacement before termination of the OSR's fiscal duties.

(2) The four (4) OSR's will serve on the Undergraduate Curriculum Committee (UCC) of the COMSC. This committee will meet outside of Student Council at least once per semester. The 3rd year OSR will chair this committee. Of this committee, only one OSR is required to attend all COMSC events and meetings. The members of this committee may serve as substitutes for each other as needed for the different curriculum

subcommittees. All students serving on the above committees will have a cumulative vote of one particular to the committee they are serving on when voting issues arise. Flexibility will be exercised for the above as future needs may warrant changes.

**Admissions Committee:** The student members of the Admissions Committee will conduct interviews of all interested persons in the 1st Year Class for the purpose of appointing two persons to a four year term on the Admissions Committee. The Director of Admissions may, if he/she desires, attend these interviews, question candidates, and participate in discussion. Appointment to the Admissions Committee will carry the rights of full committee membership, including interviewing candidates and presenting candidates to the Committee. The appointees will be subject to all Rules and Regulations set forth by the Admissions Committee. The members of the committee will be responsible for informing the Admissions Office when they will be out of town, such that interviewing schedules may be adjusted accordingly. Should the appointee at any time resign from the committee or be asked to resign from membership, the Committee will, within two (2) months of the date of resignation, solicit letters from the appropriate class, conduct interviews, and appoint a new member of that class to fill the unexpired term. The exception to replacement will be if a 4th Year resigns after completion of the fall semester, in which case time would not permit effective replacement before termination of the Committee's fiscal duties. COMSC executive council will maintain a right of refusal for selections.

### **Voting Policies**

When two or more candidates present for a position, the candidate receiving the majority of votes cast for that position shall be chosen. When there are two positions open for the same office, the two candidates receiving the two highest numbers of votes shall be chosen.

By accepting a position on the Student Council through such procedures as are herein described, the representative implies his intention to act in the best interests of his constituency and the College of Medicine; such acts deemed not in the best interest of the previously mentioned groups shall constitute grounds for recall by procedures herein described.

In the event that a vacancy occurs among the membership of the Council, the Council can call, supervise, and validate a special election, according to procedures herein described, to fill such vacancy within thirty days.

For class officer positions, the remaining class officers will be allowed to determine if there should be a special election to fill the vacant position or if the remaining officers will assume responsibilities of the vacated position.

Candidates for the office of Student Body Vice President will be members in good standing of the rising 3rd Year class. In the event that no qualified rising 3rd Years file as candidates for this office, members in

## **ARTICLE IV**

Electronic mail is a vital instrument utilized by many groups at MUSC for the distribution of important information. In order to maintain the value and integrity of this system, the President's Council, in conjunction with the MUSC Student Government Association has created the following guidelines.

### **I. University Address**

In order to post messages using the university-wide address, organizations must submit their messages to the designated Student Programs Coordinator (Student Programs Office in the Harper Student Center) for approval and transmission or utilize the MUSC Student Broadcast system.

### **II. College Addresses**

The use of college-wide e-mail addresses (i.e. addresses that send messages to every student in a particular college) will be limited to the University administration, student government officers within each college, and recognized college organizations. No exceptions.

In order to post messages using the college-wide addresses, organizations must submit their message to the designated college office in Student Affairs for approval and transmission.

### **III. Individual Class Addresses**

The use of class-specific (i.e. com-1yr@musc.edu ) e-mail addresses will be limited to the University administration, student government officers of that class's college, and class officers.

### **COMSC E-mail Policy Addendum**

The College of Medicine allows individuals to use class-specific e-mail addresses. Only members of a specific class may e-mail their class (i.e. you must be in the first year class to e-mail all first year students). Any other restrictions are to be left to the discretion of class officers.

Individuals may not use the overall college addresses (i.e. e-mail all members of the COM) without COMSC approval. Messages that would meet the criteria for approval are those that serve the welfare of the COM at-large (i.e. scholarship opportunities, volunteer opportunities, etc.). COM student organizations will retain the ability to use these addresses for official announcements such as meetings, etc. A simple majority of the Executive Committee retains the ability to approve or reject e-mail messages directed to the overall college e-mail addresses. Messages selected for rejection by failing majority vote by the Executive Committee may then be considered at the next convening of the COMSC.
