I. Department Mentorship/Faculty Development Goals

The Department of Otolaryngology – Head and Neck Surgery recognizes that opportunities for mentoring, professional and personal development are critical to the successful recruitment and retention of the highest quality faculty.

The goal is for all faculty members in the department to achieve their individual full potential as faculty members of the Medical University of South Carolina and to be rewarded for that achievement. Since the University is a place where everyone is learning, it is vital that each member of the faculty see tangible evidence of that professional growth, whether it be in the easily measured domains of writing papers for publication, writing and receiving grants, or preparing and presenting lectures for students and trainees of our colleges, or in the less easily measured aspects of teaching students, residents and fellows, mentoring young investigators and junior faculty, or developing clinical expertise by specializing in some area of clinical medicine. It is incumbent on faculty members, their mentors, department chairs, and the university leadership to see that tangible progress is being made and documented. This mentoring plan is designed to assist in this process.

A structured mentorship and faculty development program reflective of the mission and culture of the department, yet flexible to the goals of the individual faculty member was developed in the fall of 2005 by a *provisional* committee composed of junior and senior faculty members who provided input based on their experiences and perceptions of the critical elements necessary to cultivate the success of junior faculty members in an academic medical setting. A *standing* Mentorship/Faculty Development Committee (MFD) composed of senior faculty was formed and charged with ensuring the successful implementation of the plan that was formally implemented in January, 2006. The details of the Mentorship/Faculty Development Plan are outlined below and may be reviewed on the Department of Otolaryngology Education site at http://ent.musc.edu.

II. Mentorship/Faculty Development Committee

Current Members: Chair/*Champion* – Rodney J. Schlosser, M.D., Ted Meyer, M.D., PhD Judy R. Dubno, Ph.D., Krishna Patel, M.D., PhD, Jason Newman, M.D., David White, M.D., Liz Camposeo, Aud

The roles of the MFD standing committee include:

- *Champion* will be part of a University Mentor Leadership Council that meets at least quarterly to troubleshoot about ways to enhance mentoring in the University
- monitor, review and modify the MFD plan on an as-needed basis and at least bi-annually
- advise the mentee on the appropriateness of the designated tenure track (http://academicdepartments.musc.edu/com1/faculty/index.htm)

- assist the mentee in selection of mentor(s) and ensure that the mentor(s) match the junior faculty members' academic, clinical, and/or research interests
- evaluate the mentee mentor relationship
- assist the mentee in professional goal development that includes the areas of clinical practice, teaching, and research
- evaluate mentee progress toward established goals on an annual basis(APPENDIX A)
- provide timely feedback to the mentee so that he/she can align activities in ways that will increase the likelihood of future success
- share consensus evaluation of mentee's progress toward goals with the Chair for review and consideration during the mentee's annual review
- serve as liaison between the mentee and Chair regarding mentee progress
- interact and participate with other groups on campus (e.g., Women's Scholars Group, Faculty Senate, University Leadership Council) to share MFD initiatives and issues

III. Candidates for Mentorship (Mentees)

The Department of Otolaryngology - Head and Neck Surgery recognizes that the annual evaluation meeting or even periodic meetings with the Departmental Chair are insufficient for facilitating timely and necessary career directions that facilitate and support successful professional development in the unique area of interest of the junior faculty member. Junior faculty members are therefore required to seek and identify a senior faculty member to serve as primary mentor. The primary mentor will assist the mentee in the selection of additional mentors, if necessary, depending on the unique interests of the mentee, and may include interdisciplinary senior members from other departments.

All Assistant professors will be required to participate in the mentorship/faculty development plan. The mentee will:

- 1. Review and demonstrate knowledge of MFD plan containing specific goals as measured by successful completion of MFD objectives.
- 2. Select one or more interested senior (associate or full professor) faculty members (e.g. identified by the MFD committee) from the Department and/or any other appropriate areas of the University with whom they will establish a mentoring relationship
- 3. Present the selected mentor(s) to the MFD Committee for discussion and approval within 3 months of date of hire
- 4. Request a change of mentor and document the rationale for the change to the MFD committee
- 5. Establish 1, 3, and 5 year professional development goals in collaboration with mentor(s)
- 6. Maintain a MFD portfolio The components of the portfolio include:

- The MFD plan and evaluation report (APPENDIX A)
- An updated MUSC formatted CV
- A record of written correspondence that attest to the clinical, education related, and research endeavors of the mentee
- All departmental, COM and institutional policies that pertain to promotion and tenure
- Mentor/mentee relationship evaluation report (APPENDIX B)
- 7. Participate in the evaluation of the MFD plan (APPENDIX C)

IV. Role of Mentor

The selected mentor, if he/she agrees to serve, will be evaluated for their performance as mentor during the *annual* performance evaluation with the departmental Chair. He/she will complete the following:

- provide expert guidance in the development of target areas of professional focus including clinical, teaching, and research content
- establish 1, 3, and 5 year professional development goals in collaboration with mentee
- assist mentee in strategizing and seeking opportunities for intra- and extramural funding
- assist mentee with manuscript preparations and publications
- serve as a sounding board for mentee's research ideas and share experiences on how to handle difficult situations that may arise in the academic life. The mentor shall take great care not to push the mentee into a scientific direction that might be beneficial to the mentor but rather to aid the mentee in becoming an independent clinician, educator, and/or researcher.
- familiarize junior faculty with the promotion process at MUSC and update junior faculty with any changes in MUSC policy
- assist junior faculty in developing a system to document teaching accomplishments, scholarly work, and service to the Department, University, and community, and other activities that will be useful at the time of promotion or tenure consideration
- meet with their assigned junior faculty members at least quarterly to set goals and review progress towards meeting promotion/tenure goals
- maintain documentation of the progress of each mentee and report on progress
 (APPENDIX A) of junior faculty in meeting the goals for promotion and tenure to the
 MFD committee

• participate in the annual evaluation of the MFD plan (APPENDIX C)

V. Annual Evaluation

Annual, formal MFD plan reviews are conducted between the mentee and the MFD Committee in the months of May and June. The Mentee submits the following portfolio 30 days prior to the review to the MFD Chair:

- 1. Designated Promotion Track
- 2. MUSC Formatted Curriculum Vitae http://academicdepartments.musc.edu/com1/faculty/index.htm
- 3. Promotion and Tenure Checklist http://academicdepartments.musc.edu/com1/faculty/index.htm
- 4. Mentee Mentorship/Faculty Development Plan and Evaluation Report (APPENDIX A)
- 5. Mentor/Mentee Relationship Evaluation (APPENDIX B, Parts 1 and 2)

The committee meets and assesses the progress of the mentee and reconciles their plan with the College Promotion and Tenure Criteria. Any deficiency or barriers to progress are identified. The Committee's assessment of the mentee's progress will be presented verbally to the mentee during the annual MFD review. The Committee also submits a written assessment to the Department Chair for consideration and discussion with mentee during the annual performance evaluation.

Although the annual performance evaluation conducted for all faculty members by the Department Chair includes all aspects of faculty performance, the Department Chair also focuses on the mentee's progress towards faculty development and promotion. The chair will carefully consider the evaluation of the mentee performed by the MFD committee in his/her assessment.

The Chair will review and offer input into the mentee's portfolio to ensure that areas of concentration facilitate the mentee's successful MFD development and departmental strategic plan. The Chair may also suggest and facilitate a change of mentor(s) if the relationship is not deemed beneficial for either participant.

Mentees intending to submit for promotion must get entire promotion packet to MFD Committee 1 year prior to desired promotion date. This will give the Committee and Department Chair adequate time to review the packet and solicit external letters of review, all of which are due to the Dean's Office 7 months prior to desired promotion date.

VI. Outcome Measures for the MFD Program Success:

Departmental Outcome Measures for Mentorship Success:

- 1. Surveys of faculty on their satisfaction with the plan and their job overall
- 2. Attrition of faculty within the department
- 3. Percentage of eligible faculty promoted within a 5 year period.
- 4. Number of faculty promoted ahead of schedule (generally 6 years in grade)
- 5. Total funding from all mentored activities

- 6. Total number of publications overseen by mentors
- 7. Honors and awards by faculty
- 8. Recruitment of top students, residents, clinical and research fellows, postdoctoral fellows
- 9. Successful recruitment of faculty candidates

Mentee Outcomes Measures for MFD Program Success:

- 1. Achievement of Short and Long Term Goals (APPENDIX A)
- 2. Positive Responses or Positive Modifications in MDF (APPEDIX B)
- 3. Maintenance of Comprehensive, MUSC Formatted vitae and NIH Biosketch

Research related metrics:

- 1. Number of grants submitted by mentee under the mentor's guidance
- 2. Number of these grants funded
- 3. Number of original publications under the mentor's guidance
- 4. Importance of original publications under the mentor's guidance (e.g., journal quality, impact factor, editorial written on paper)
- 5. Career development progress of mentee while guided by the mentor, e.g., presentation of research at national / international meetings, invited
- 6. Presentations at meetings or other universities, election to study sections or specialty societies, promotion of mentee
- 7. Research awards of mentee under the mentor's guidance

Teaching related metrics:

- 1. Teaching accomplishments of mentee under mentor's guidance, e.g., formal courses taught, course materials developed, innovative teaching methods developed
- 2. Number of educational publications under the mentor's guidance
- 3. Importance of educational publications under the mentor's guidance (e.g., journal quality, impact factor, editorial written on paper)
- 4. Number of educational grants submitted by mentee under the mentor's guidance
- 5. Number of these grants funded
- 6. Career development progress of mentee while guided by the mentor, e.g., presentations at national / international meetings, invited presentations at meetings or other universities, membership on education committees in or outside of the institution, promotion of mentee
- 7. Honors and awards for teaching to the mentee under the mentor's guidance

Clinical related metrics:

- 1. Number of presentations at institutional, national, or international meetings by trainees (students, residents, and fellows) or junior clinical faculty under the mentor's guidance
- 2. Number of publications by trainees (students, residents, and fellows) or junior clinical faculty under the mentor's guidance
- 3. Innovative clinical care developed by junior faculty under mentor's guidance
- 4. Career development progress of trainees and junior clinical faculty while

- guided by the mentor, e.g., graduation from clinical training program
- 5. Honors and awards for clinical care to the junior faculty member under the mentor's guidance

VII. Description of Promotion and Tenure Process Within the Department of Otolaryngology- HNS

Each College at MUSC has different tracks and ranks and a process through promotion in which faculty progress is documented. The Faculty Promotion Matrix is also provided as **APPENDIX D**. The various ranks in our Department and College and the description of how the Department's Promotion and Academic Committee operators can be found in the links and Appendix E with guidelines for achieving them. Sample educational portfolios are also available.

- a. Faculty affairs website:
 - http://academicdepartments.musc.edu/com1/faculty/index.htm
- b. College of Medicine http://www.musc.edu/com

VIII. Resources Available for Faculty Development

Resources are required for optimal faculty development and may be found in the department, at the institutional level, and at the state or national level. The Department of Otolaryngology provides the following:

- Clinical support (nurses, physician assistants)
- Research support (postdoctoral fellows, research assistants, student stipends)
- Enrollment in MSCR
- Start-up package (supplies, travel, equipment)
- Protected time for research
- Clinical trials administrative support
- Part-time administrative assistant
- Part-time grants manager
- Professional development account (for meeting travel, other)
- Professional dues
- Academic accounts

policies, and procedures for promotion and tenure					
6. The mentee has a good understanding of the challenges	1	2	3	4	5
presented to the mentee.					
7. The mentee has developed established relationship(s) with a	1	2	3	4	5
mentor(s) in the areas of teaching, research, clinical service, and					
faculty development					
8. The mentee takes criticism/suggestions from the mentor and	1	2	3	4	5
reacts appropriately					

APPENDIX C: Department Evaluation of Mentorship/Faculty Development Plan

The primary goal of the MFD plan is to promote faculty development by establishing mentor/mentee relationships between senior and junior faculty. Assessment of success of the MFD plan in attaining this goal is performed *annually* within the department and *every three years* by three faculty or administrators from outside of the department. The success of the MFD plan will be determined based on the following criteria:

1. Departmental growth and productivity

Departmental growth and productivity is necessary to support and cultivate faculty development. The following parameters should be considered representative of faculty development:

- Clinical scope and diversity of practice within the department
- Abundance of research publications and grants
- Faculty involvement in teaching activities throughout the university
- Departmental contribution to community education and service
- Administrative involvement of faculty within the university
- Growth and stability of departmental financial resources
- Faculty involvement in local, regional, and national academic and professional societies
- Local, regional, and national recognition of faculty and departmental excellence
- 2. Faculty understanding of policies regarding advancement, promotion and tenure
 - All faculty should be able to demonstrate awareness and understanding of the departmental and university requirements for advancement, promotion and tenure
 - Departmental and university requirements for advancement, promotion and tenure should be distributed to and reviewed with all faculty annually
- 3. Faculty success in attaining goals outlined in 1, 3, 5 year professional development goals
 - Successful faculty development should result in achievement of short- and long-term goals
 - Practicality of professional development goals shall be representative of effectiveness of faculty mentorship
 - Departmental provision of adequate "start-up" resources to junior faculty should be reviewed annually
- 4. Integration of faculty goals into departmental long-term growth plan
 - The departmental growth plan should include achievement of faculty professional development goals to maximize faculty satisfaction and departmental productivity
- 5. Faculty satisfaction

- Overall faculty satisfaction, ability to retain new faculty, and ability to successfully recruit new faculty
- Successful recruitment of top quality residents
- 6. Collaboration between junior and senior faculty
 - Successful mentorship should result in collaboration between junior and senior faculty in developing new clinical and research initiatives for the department

APPENDIX E: Mentorship Guidelines for Promotion in Otolaryngology - HNS

Current level is Assistant Professor or below

- Ensure you clearly meet criteria on MUSC APT website for your track (https://horseshoe.musc.edu/university/colleges/com/faculty/apt-committee), especially the matrix. Prepare updated CV and educational portfolio and pay particular attention to formatting requirements which change frequently!
- Get approval from Division Head and Department Chair to initiate the process. This does not mean you are guaranteed to get promoted just that they support initiating the process. Entire process takes almost a year.
- Email CV and educational portfolio to Mentorship Chair for initial guidance. This must be done at least 4 weeks prior to in person meeting.
- Based on initial guidance from the Mentorship Chair, schedule formal in person meeting with
 Mentorship Committee. At least 2 weeks prior to Mentorship Meeting, email draft of your
 entire packet (see MUSC COM APT website for proper format and all items required). The
 Mentorship Committee meets in the spring and fall, approximately 1-2 months prior to deadline
 for packets to get to Dean's Office.
- For example, you want to get promoted next available date and Chair agrees:
 - o Mentorship Committee will meet March 15, 2022.
 - o Email CV and educational portfolio to Committee chair by Feb 15, 2022 (or so).
 - o Preliminary approval granted to move forward.
 - o Now get entire packet together and submit to Mentorship Committee by March 1, 2022.
 - o Committee meets with you March 15, 2022 and gives approval.
 - O You will now have 6-8 weeks to get entire packet to Dean's Office by April 25, 2022 deadline.
 - o If approved by COM, this would result in promotion effective Jan 1, 2023.
- If you meet with Mentorship Committee in the fall, deadline for Dean's Office packet is December 5, 2022 for promotions effective July 1, 2023.
- The rate limiting step is typically external letters of reference solicited by the Department Chair (not by you). This step should be initiated immediately after meeting with Mentorship Committee if not before. Check the MUSC APT website for how many letters are required and who can write them.
- Mentorship Committee will provide feedback to faculty regarding personal statement, CV, letter writers, etc to fine tune packet, but it should be mostly completed at time of in person meeting.
- After the in person meeting, the Mentorship Committee has given approval and will notify the Department Chair and is no longer part of the process. It is the individual faculty member's responsibility to work with the Department Chair's administrative assistant to ensure the entire packet is properly completed and on time and submitted to Dean's Office.

Current level is Associate Professor, wish to apply for promotion

- Ensure you clearly meet criteria on MUSC APT website for your track (https://horseshoe.musc.edu/university/colleges/com/faculty/apt-committee), especially the matrix. Prepare updated CV and educational portfolio and pay particular attention to formatting requirements which change frequently!
- Get approval from Division Head and Department Chair to initiate the process. This does not mean you are guaranteed to get promoted just that they support initiating the process. Entire process takes almost a year.
- Email CV and educational portfolio to Mentorship Chair for initial guidance. This must be done at least 4 weeks prior to the Mentorship Committee meeting.
- YOU DO NOT NEED TO SCHEDULE A FORMAL IN PERSON MEETING WITH
 MENTORSHIP COMMITTEE. We are happy to meet in person, but not a requirement if you are
 already an Associate Professor. However, the committee will still review packets. So at least 2
 weeks prior to Mentorship Meeting, email draft of your entire packet (see MUSC COM APT
 website for proper format and all items required). The Mentorship Committee meets in the spring
 and fall, approximately 1-2 months prior to deadline for packets to get to Dean's Office.
 - The Mentorship Committee meets in the spring and fall, approximately 1-2 months prior to deadline for packets to get to Dean's Office.
 - o For example, if Mentorship Committee meets in March 2021, and they give approval, you will have 6-8 weeks to get entire packet to Dean's Office by April 25, 2022 deadline. This would result in promotion effective Jan 1, 2023.
 - o If Mentorship Committee meets in the fall, deadline for Dean's Office packet is December 5, 2022 for promotions effective July 1, 2023.
- The rate limiting step is typically external letters of reference solicited by the Department Chair and not by you. This step should be initiated immediately after Mentorship Committee gives approval.
- Mentorship Committee can provide feedback to faculty regarding personal statement, CV, etc to fine tune packet if you desire.
- After the Mentorship Committee has given approval, we will notify Chair of approval and the committee is no longer part of the process. It is the individual faculty member's responsibility to work with the Chair's administrative assistant to ensure the entire packet is completed on time and submitted to Dean's Office.
